The Sun is the centre of our solar system. It is the only star in our solar system. The nine planets and their moons all move around the Sun. The Sun provides heat and light to the planets and their moons. A year is the time it takes for a planet to move around the Sun. A year on Earth is 365 days. Some planets are so hot or so cold that nothing can live on them. Different planets have a different number of moons. Earth has only one moon, while other planets may have as many as eighteen!

3 Выберите фотографию и опишите человека на ней. У вас есть полторы минуты на подготовку и не более двух минут для ответа. У вас должен получиться связный рассказ (7–8 предложений). План ответа поможет вам:

A. The Republic of South Africa is the southernmost country in Africa. The area was originally occupied by an ethnic group of people called the Zulu who had migrated to the south from other parts of Africa over a thousand years ago. South Africa later became a Dutch colony and after that — a British colony. In 1961, the country gained independence from Britain and became a republic.

B. In 1948, the government classified the South African population into races and gave them different rights. This legal segregation known as apartheid ended in 1993 with the release of Nelson Mandela, an anti-apartheid revolutionary, after 27 years in prison. Nelson Mandela became the first black president of South Africa.

C. The Boer Wars were a series of conflicts between the Dutch settlers of South Africa (the Boers) and the British colonists. After France invaded the Dutch Republic during the Napoleonic Wars, the British invaded South Africa and took control. This caused a lot of tension between the Dutch and British colonists and resulted in several wars of independence.

D. South Africa has 11 official languages including Zulu (the language of the Zulu tribes, native to the area), Afrikaans (a Germanic language that evolved from Dutch) and English. The three most spoken languages are Zulu, Xhosa (a native African Bantu language, notable for its use of click consonants) and Afrikaans, although English is recognized as the language of commerce and science.

E. The majority of South Africa consists of flat plateaus surrounded by steep slopes called the Great Escarpment. As you go further north the climate becomes drier and drier until the landscape fades completely into the Kalahari Desert.
